**FOR IMMEDIATE RELEASE**

## **Cyberlux Delivers Second Datron Spares Shipment Three Months Early, Completing MENA FMS Program**

**Research Triangle Park, NC — 02/10/2026** — Cyberlux Corporation (OTC: CYBL), a leading provider of advanced mission-critical technology solutions, today announced the successful shipment of the second major delivery of Datron radio system spares under a US Government Foreign Military Sales (FMS) contract, supporting a partner nation in the Middle East and North Africa (MENA) region. The contract shipment was completed approximately three months ahead of the contractually required delivery schedule.

This second shipment, valued at approximately \$720,000, completes the two-shipment Datron spares program totaling \$1.4M in radio accessories and sustainment hardware for the MENA partner nation, including PRC2100V module repair kits, GPS manpack antennas, GPS cable antennas, AM2100 parts spares kits and PRC2100V battery packs. Together with the first Datron spares shipment announced on November 19, 2025, these deliveries represent substantial progress in fulfilling more than \$10 million in Cyberlux MENA-region orders currently in backlog.

"These accelerated MENA partner nation FMS deliveries highlight our focus on operational execution and our role as a trusted supplier to U.S. Government partners and allied nations," said Mark Schmidt, CEO of Cyberlux Corporation. "By completing the second Datron spares shipment roughly three months ahead of the required date, we are strengthening communications sustainment and readiness for the partner nation while efficiently converting our MENA backlog into revenue."

The Datron spares contract fulfillment provides long-term sustainment of deployed PRC2100V manpack radios and related systems, maintaining critical VUHF and HF communications for the partner nation in alignment with U.S. foreign military support priorities in the region. All equipment is new production and is delivered in accordance with the contract's technical, packaging, Item Unique Identification (IUID), and warranty requirements.

Cyberlux continues to support U.S. Government customers, partner nations and allied forces across the Middle East and North Africa with advanced unmanned aerial systems, tactical communications and mission support solutions, including additional MENA-region orders and expected new contracts currently in its backlog.

### **About Cyberlux Corporation**

Cyberlux Corporation (OTC: CYBL) is a leading provider of advanced defense technology solutions, specializing in tactical unmanned aerial systems (UAS), military communications and mission-critical solutions for global military markets. The Company develops next-generation military capabilities designed to enhance operational effectiveness for U.S. military, government, and global defense partners.

## SAFE HARBOR STATEMENT

This Press Release may contain forward-looking statements that can be identified by terminology such as "believes," "expects," "potential," "plans," "suggests," "may," "should," "could," "intends," or similar expressions within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All forward-looking statements are inherently uncertain as they are based on current expectations and assumptions concerning future events or future performance of the Company.

The forward-looking statements in this release include statements regarding pipeline conversion, the timing of cash flow generation, the Company's ability to resolve outstanding legal matters, and the ultimate realization of backlog and pipeline opportunities. These forward-looking statements are subject to significant risks and uncertainties, including but not limited to: (i) risks associated with pipeline conversion, including contract award delays and the failure to convert qualified pipeline opportunities into revenue; (ii) litigation uncertainties and the risk that pending legal matters in Texas and Virginia may not be resolved favorably or as anticipated; and (iii) assumptions regarding cash flow timing and operating performance, which depend on order fulfillment execution and the availability of adequate working capital.

Readers are cautioned not to place undue reliance on these forward-looking statements, which are only predictions and speak only as of the date hereof. In evaluating such statements, prospective investors should review carefully various risks and uncertainties identified in this release and matters set forth in the Company's OTC/SEC filings. These risks and uncertainties could cause the Company's actual results to differ materially from those indicated in the forward-looking statements.
