Chief Operating Officer

¹ Cyberlux notes the \$1.445M Garnishment Summons from the Circuit Court of Fairfax County, Virginia presented to HII on or around March 11, 2025 is for an amount that is greater than the judgement amount included herein. The difference relates to amounts that are still unadjudicated and have not been awarded to the plaintiffs by a court of competent jurisdiction. Cyberlux believes that any final adjudication of the claims will result in aggregate payments that are less than the Garnishment Summons.

² Not adjudicated; amount owed reflects Cyberlux’s expectations following preliminary conversations between the parties around a settlement.

³ Not adjudicated; amount owed reflects Cyberlux estimate as settlement conversations are ongoing.

⁴ Not adjudicated; amount owed reflects Cyberlux estimation based on settlement discussions, particularly around timing of payments.
