Piotr this is what I wrote Jim after reading the evidence online (twitter). I really loved you and WB. I never would have imagined that this would come to it. What have I done to you or WB? I only helped you get market access and did everything in my power to get you guys out there. Why brother? I'm very saddened that my reputation is being burned by your employee.

Jim, I'm very disappointed in finding out that you were attacking me personally on twitter with that fake account (per to what I'm reading on twitter). You were attacking my personal credibility and my reputation. It has caused lots of damage to my reputation and now I'm going to seek legal advice on this. If you work in this space and you've ever been pressured to stay quiet, to look away, or to let it slide when this you're not alone, and you're not powerless.

There you have it brother. I guess all of that twitter stuff was true. He really tagged every single US defense company in the United States to try to kill my career. He also tagged all sorts of US government agencies. As the president of WB America, I highly doubt he was doing it alone. I love you Piotr but this I'm my books is a crime at the highest levels. One thing to note, quietly talking to the FBI like he said he did, doesn't mean create a fake twitter account, bash the reputation of a company and its employees and ruin their reputation and careers. All that as the president of WB America

@RacketerX

After months of their continued assault on @CYBIL @CyberLusc, who is @theJacksonHolt? The anonymous account has for months spread a damning narrative behind the curtains(pun intended). 10:00 PM · 5/27/25 · 116 Views

I just told him that we have nothing to do with it 6:30
